

FOR IMMEDIATE RELEASE

Masterack Announces New Distribution Partnership with Patriot Fleet Solutions to Serve Customers

Atlanta, GA – Masterack, a leading manufacturer of commercial vehicle upfit solutions for more than 55 years, is proud to announce a new distribution partnership with Patriot Fleet Solutions, expanding access to Masterack products and support through its nationwide network.

This strategic partnership strengthens Masterack's distributor network and enhances service availability for fleets seeking high-quality cargo management systems, work-ready upfit packages, and reliable regional support.

"Partnering with Patriot Fleet Solutions allows us to better serve fleet operators with the speed, expertise, and product availability they need," said Brandon Congreve, Director of Distribution Sales. "Patriot's commitment to customer service and operational excellence aligns perfectly with Masterack's mission to deliver durable, technician-focused upfit solutions that keep fleets productive."

Located near Baton Rouge, Louisiana, Patriot Fleet Solutions provides a complete range of fleet services, including upfitting, vehicle preparation, logistics, and project management. As an authorized Masterack distributor, Patriot will offer a comprehensive lineup of Masterack cargo management products and turnkey upfit packages for work vans, pickup trucks, and vocational fleets.

"We're excited to welcome Patriot Fleet Solutions to our distributor network," Brandon continued. "Their capabilities and customer-first mindset make them an ideal partner as we continue expanding our footprint across the country."

The partnership officially began in December 2025, with Patriot Fleet Solutions now fully equipped to support Masterack customers.
