

LADDER RACK LINEUP

ELEVATE YOUR SERVICE BODY.

➤ Masterack first introduced the roof-mounted ladder rack in 1972. Now, meet the next industry-leading lineup of ladder racks for your service body. Built tough with safety and ergonomics top of mind, **Masterack service body ladder racks are designed for rugged conditions to meet the needs of your technicians on the roads.**

LOCKING LADDER RACKS

- Robust locking ladder rack system with end roller for easy loading and unloading
- Available for all 9', 10' and 11' service bodies
- High-quality aluminum construction
- 100 lb. load capacity
- Interior under plate inside the service body for increased mounting support
- Sloped design improves ergonomics and promotes safe ladder access for the technician to reduce risk of injury
