

We are industry leaders with more than 50 years of experience designing and manufacturing proven, high-quality products for commercial-grade vans and cargo management solutions. Our customers trust Masterack to provide solutions that keep them organized, efficient and safe on the jobsite and the road.

FOUNDING

Masterack started as the metal fabrication company in Atlanta in **1936**. We served a variety of markets before patenting the original roof-mounted clamping ladder rack in **1972** which gave us our start in the upfitting industry.

PEOPLE

We have a dedicated team of approximately **250 employees** spread across our headquarters and manufacturing facility in Georgia and two upfit centers in Missouri.

PRODUCTS

We design and manufacture a wide range of van and pickup cargo management solutions for the nation's largest fleets and auto makers. Our products are made in America with the highest quality steel, aluminum and composite construction to fit your needs.

CORE COMPETENCIES

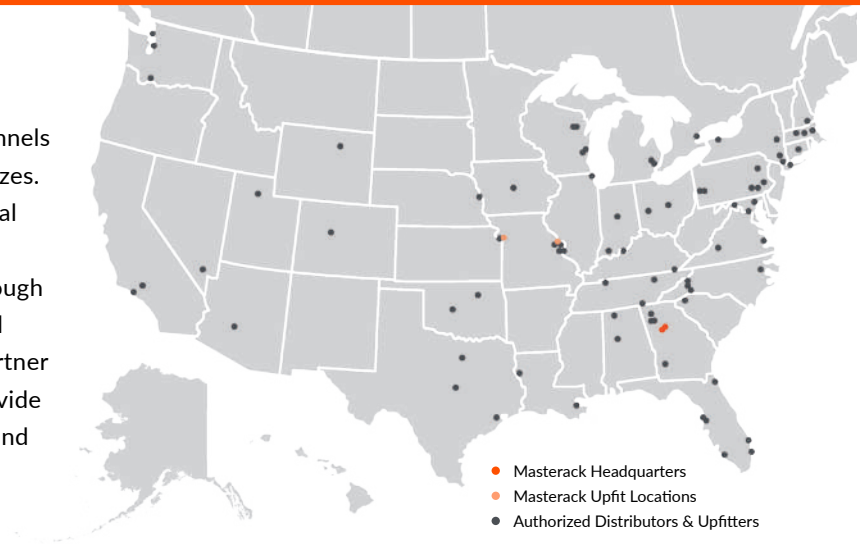

From the beginning, Masterack has been an industry leader in sheet metal fabrication. Our 200,000 square foot manufacturing facility is located in Social Circle, GA. With a best-in-class powder coating system, we offer customers premium quality construction of cargo management solutions and component contract manufacturing. Our team takes pride in delivering a tailor made product that's ready to work as soon as it hits the road.

FOOTPRINT

We go to market through direct and indirect channels to best meet the needs of large and small fleet sizes.

Two certified upfit centers serve large commercial fleet customer managed by our dedicated sales account team. For smaller fleet sizes, we sell through our network of **100+ authorized distributors and local upfitters** across North America. We also partner with major OEMs like **Ford, GM and RAM** to provide our customers access to chassis pool, ship-thru and freight re-entry programs.

MARKETS & CUSTOMERS

Masterack serves customers in a variety of key industries from the small local crew to some of the nation's largest fleets. With specialty engineered trade packages built for the needs of today's electrician, HVAC tech, general contractor and more - each upfit is tailor-made for the demands of the job. Customers can trust our dedicated account team to provide expert service from planning through vehicle delivery.

INNOVATION

Product innovation is at the core of our company values. We have led the industry since our invention of the first roof-mounted clamping ladder rack in 1972. Our team of expert engineers design products that add customer value through innovation, whether that's an ergonomic design improvement or lightweighting materials for alternative fuel readiness.

ABOUT PARENT COMPANY

We are proud to be part of JB Poindexter & Co, a privately-held corporation managing a diversified portfolio of best-in-class companies. Our combined portfolio offers customers the largest range of products in the commercial fleet market ranging from class 1-7 vehicles and accessories. Learn more at jbpoindexter.com.
